

Your Bi-Monthly e-Update from Food Quality Labs, Inc.

Storm Water

Winter rains will soon be here. Do you have a testing plan for your storm water needs? Have you determined what tests need to be run on your storm water? Do you know which lab to use?

Food Quality Labs has extensive experience in performing testing on all kinds of waste water. Whatever you need tested, we can test it for you.

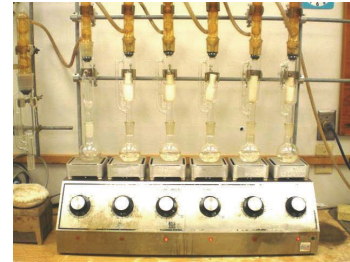

Food Safety & Sanitation Workshop

Planning to attend the upcoming NW Food Safety and Sanitation workshop later this month?

Stop by our booth and talk to our scientists. We will discuss ways to fine-tune your testing to achieve better results while controlling your costs.

To remind you, it's at the Sheraton Portland Airport Hotel on October 28 and 29.

October-November 2008

**Old doesn't mean obsolete:
this is still as functional as
when it was new**

Newsletter Spotlight

Food Quality Labs has just added testing for Legionella sp. in water. The cost is \$350 and time to results is 30 days.

Let us handle your Legionella sp. testing.

Newsletter Special Discount

This letter announces a temporary discount of 20% for CFU/100 mL Heterotrophic Plate Count (HPC) test. The price is reduced from \$20 per sample to only \$16. Of course, you can still order the standard CFU/1 mL test at the regular price of \$18. This offer applies to all samples received between October 1st and November 30th. Mention you saw it here to receive your discount.

If you use DI water, tap water, or sink water in your processing, you want to make sure it is clean. Since each situation is different, call us to discuss your needs to better determine which would be best for you.

This is one more example of our efforts to reduce your testing costs.

Thought for the month

Many people believe in you...make sure you're one of them!
